

"P" DOME

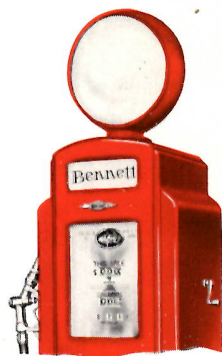

"B" DOME

Two or four advertising panels or none at all may be had, the choice being optional. The letter "B" after the model number denotes two panels; the letter "F," four panels; the letter "P," no panels. For instance, model number 541B denotes a Model 541 computer with two advertising panels (see illustration upper right). Standard advertising panels are either plain frosted glass or lettered "Drive Safely." Special panels supplied at no extra cost when specified at time of order.

ISLAND LIGHTER

GLOBE ADAPTER

GLOBE ADAPTER

All models will be equipped with globe adapters only if so specified at the time the pump order is placed. (Globes are not furnished.)

ISLAND LIGHTER

Constructed of finest materials — spun aluminum reflector — swivel electric attachment plug, asbestos covered electric wiring, column bottom-threaded at both ends and equipped with waterproof collar (gland seal type). Lighter easily and quickly secured to top frame of pump — no load imposed on pump housing — alignment adjustment assures perpendicular column. Overall height of pump and lighter 10' 3". Diameter of reflector 20 1/4". Lighter bulbs not included. 300W Mogul base lighter bulbs recommended.

MODEL 1500

MODEL 1400

MODEL 1500

One gallon gasoline or kerosene Pedestal Pump with one and two quart quantity stops. Seamless brass cylinder and brass valves. High grade gasoline-resisting cup leather with brass expansion spring. 1 1/4" foot valve. 8' x 3/4" metal-lined, cotton-covered gasoline hose with straight tube nozzle. Meter or counter at additional charge. Overall height 65 1/2". Shipping weight approx. 96 lbs.

MODEL 1400

Pedestal Rotary Pump, continuous action type. No back turning necessary. Special BENNETT design of the rotor provides fast, efficient trouble-free service. Malleable iron crank. Initial pump prime made by removing small pipe plug at top of rotor body. 8' x 3/4" metal-lined, cotton-covered hose. 3/4" straight tube nozzle. 1" intake pipe has 1" foot valve. Overall height 65 1/2". Shipping weight approx. 70 lbs.

MODEL 1405

Rotary barrel pump similar to Model 1400 but equipped to fit 1 1/2" and 2" drum openings. 3/4" sliding intake will fit drums from 15 to 60 gallon capacity. Furnished with foot valve, 8' x 3/4" metal-lined, cotton-covered hose, 3/4" straight tube nozzle. Shipping weight approx. 42 lbs.
