

MODEL 100MF

Handling ease and operation accuracy are some of the characteristics of this crank type grease dispenser with 100 lb. container, approved flow meter, and built-in air release. 5' 6" hose and Type "C" nozzle. Shipping weight approx. 89 lbs.

MODEL 100MCF

Same as Model 100MF but equipped with built-in totalizing register for recording total amount of grease dispensed. Shipping weight approx. 89 lbs.

MODEL 100

Crank type unit with 100 lb. container and Model 2 truck but without meter. Pumps approximately $\frac{1}{2}$ pint per stroke, otherwise similar to Model 100MF. Shipping weight approx. 86 lbs.

MODEL 100B

Same as Model 100 less container and truck. Shipping weight approx. 28 lbs.

MODEL 100BMF

Basically the same as Model 100MF but furnished without drum or truck as illustrated. Shipping weight approx. 35 lbs.

MODEL 100BMCF

Model 100BMF equipped with totalizing register. Shipping weight approx. 36 lbs.

SCOOTER

For 100 lb. grease outfits. Adaptable to units listed above and all 100 lb. drums having a base diameter of $14\frac{1}{4}$ " over bead. Rust-proofed formed steel castors kept in place by retainer rings. Shipping weight approx. 8 lbs.

MODEL 100ML

Combines dependability, accuracy and handling ease. Pumps $\frac{1}{2}$ pint per stroke. Approved counter type mechanical meter. BENNETT mechanical lock which locks handle and meter when grease supply is exhausted. Consists of model 100BML grease pump (illustrated below), Model 2 Truck, 100 lb. grease drum, 5 $\frac{1}{2}$ ' hose and type "C" nozzle. Shipping weight approx. 86 lbs.

MODEL 100MCL

Same as Model 100ML plus totalizing register to record amount of grease dispensed. Shipping weight approx. 86 lbs.

MODEL 100BML

Approved counter type mechanical meter with approved built-in locking device which automatically locks handle when grease supply is exhausted. Pumps $\frac{1}{2}$ pint per stroke. Mounted on 16-gauge steel bed plate, 14" diameter. 5 $\frac{1}{2}$ ' hose. Type "C" nozzle. Shipping weight approx. 30 lbs.

MODEL 100BMCL

Same as Model 100BML plus totalizing register. Shipping weight approx. 30 lbs.

NOTE: None of the models listed below are approved in states requiring metered grease equipment.

MODEL 100BM

Furnished with plain pump with a mechanical meter. Similar to Model 100BML without mechanical lock. Shipping weight approx. 27 lbs.

MODEL 100BMC

Same as Model 100BM plus totalizing register recording total of grease dispensed. Shipping weight approx. 29 $\frac{1}{2}$ lbs.

MODEL 100M

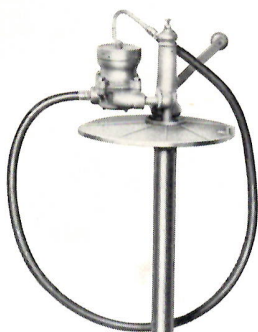

Same as Model 100BM but furnished with 100 lb. drum and Model 2 truck. Shipping weight approx. 86 lbs.

MODEL 100MC

A Model 100M with totalizing register added. Shipping weight approx. 86 lbs.
